### Advanced Water Filtration and Enhancement Technology

- **Certified by NSF to 27,000 gallons meeting NSF/ANSI Standard 177 for chlorine reduction**
- **Reduces chemicals that can inflame sensitive skin**
- **Moisturize. Proprietary enhancement media improves skin hydration – water feels like it's from a mountain spring**
- **Backwash feature extends effective filtration**

System Tested and Certified by NSF  
International against NSF/ANSI Standard 177  
for the reduction of free available Chlorine.

**30** years ago Haru Naito left Japan to complete his university studies in the United States. After his four years of study, and having won an NCAA national swimming championship, he returned to Japan to coach their national swimming team. Haru became interested in the emerging science of sports medicine. He became actively involved in health and performance research programs and was an early proponent of “muscle memory” training.

Haru's other fascination was the health and vitality of certain peoples, such as the Hunza of Pakistan, in geographically diverse parts of the world. He wondered how these groups enjoyed healthier and longer lives than people living in other regions. After extensive work, Haru determined that the common element was a proximity to naturally occurring mountain water sources that were of delicate and exquisite composition.

Wanting to provide similar benefits to his athletes in Japan, Haru sought to devise a water purification system which embodied all of the key components found in the naturally occurring mountain spring waters. Over the years Haru's system evolved. He carefully blended the natural processes with scientific research in order to create the ultimate water purifier. The result was The Wellness Filter®.

Reports of health benefits from using The Wellness Filter began to circulate throughout Japan. The Japanese Ministry of Health took interest and conducted rigorous tests. The Wellness Filter was installed in over 100 hospitals and in many physician's offices.

## The Wellness Shower™

### Water the Way Nature Intended It

- World's first and only anti-aging shower system
- Increases skin hydration by 115%
- Antioxidant effect assists body in repairing damaged skin and hair
- Endorsed and used by the #1 Health Spa in the world
- Helps promote a healthier, sanitized shower
- Certified by NSF to 27,000 gallons to NSF/ANSI Standard 177 for Chlorine reduction

The Wellness Shower effectively reduces free chlorine for 27,000 gallons (average use of 18 to 24 months) — this is three times longer than most shower filters. Most people are aware of the harmful effects of chlorine and other chemicals in their drinking water. However, many don't realize the negative effects this volatile chemical causes on the body's largest organs — our skin and lungs. Hot water quickly opens up the pores of our skin and we end up absorbing over 600% more chlorine and other chemicals than we would from drinking the same unfiltered water all day.

*Taking long hot showers is a health risk... showers, and to a lesser extent baths, lead to a greater exposure to toxic chemicals contained in water supplies than does drinking it. The chemicals evaporate out of the water and are inhaled. They can also spread through the house and be inhaled by others. House holders can receive 6 to 100 times more of the chemical by breathing the air around showers and bath than they would by drinking the water.*

*NEW SCIENTIST, September 1986*

After the water has been purified it proceeds into our proprietary enhancement stage. Here the water is optimized to enhance your showering experience. First water proceeds through our patented magnetic treatment stage. Here reduced ions are generated that protect the skin from free radical attack and aid the body in repairing damaged skin and hair. This stage is also responsible for increasing hydration by 115% over tap water, moisturizing your hair and skin without the residue of lotions.

Once the water has passed through the magnetic treatment stage it passes through our proprietary Taicho® and Bakuhan® media. Taicho stone gives the water bacterio-static and fungi-static properties. It also promotes a healthier, sanitized shower. Bakuhan stone imparts a therapeutic effect to the water that soothes damaged skin and accelerates healing. It's no wonder why Hippocrates Health Institute, rated the number one health spa in the world, endorses and uses the Wellness Shower exclusively.

#### Media

- KDF 55
- Magnetic Stage: Ceramic Magnets, Tenko-Seki®, Magnetite
- Bakuhan® Stone
- Taicho® Stone
- Quartz

#### Specifications

- Height: 12"
- Recommended Ceiling Clearance: 7"
- Diameter: 3.5"
- Flow Rate: 2.5 gpm
- Pressure Rating: 20-100 psi
- Construction: ABS black plastic housing
- Weight (dry): 2 lbs 9 oz.
